1. Kisi bhi site ka complete summary 10 second me mil jaye.
 2. Material stock accurate ho.
 3. Material shifting accurate ho.
 4. Advance balance accurate ho.
 5. Documents turant mil jaye.
 6. Site-wise profit/loss available ho.
 7. Multi-user support ho.
 8. Data loss na ho.
 9. Owner ko real-time business visibility mile.
-

Final Note for Developer

Site Ledger ko simple expense app ki tarah nahi, balki Construction ERP aur Digital Project File System ki tarah design kiya jaye jahan har site ka financial, material, labour, advance aur document control ek hi platform par available ho.
